

Aviation Services

The Plexus Law Aviation Team has a growing reputation within the Aviation Market, specialising in representing Airports and dealing with GA claims.

The team's objective is to combine technical expertise with excellent service to ensure resolution of claims cost effectively and expeditiously. The team typically deal with matters from first notification and where necessary are able to defend litigation on behalf of Underwriters which removes the need to transfer files to another organisation should legal proceedings arise.

Plexus provide an alternative option to Aviation Underwriters who traditionally have not used law firms to deal with pre-litigation matters, particularly when a claim is modest in value.

Expert Team

The Plexus Aviation Team are experts in defending both pre-litigation claims and litigation itself. We deal with Aviation claims in the UK and around the world (with the exception of the US). The Team is comprised of Lawyers who have all passed the required legal examinations and have a broad range of experience, which is crucial to our success. This enables us to deal with claims from the highest value and complexity right down to modest claims where Underwriters do not need a Partner or a senior lawyer to do the majority of work. This is reflected in the prices that we charge.

The team are experts in defending claims on behalf of Airports. We currently act on behalf of over 25 airports both UK and worldwide. The majority of our instructions are to act on behalf of UK based Airports but we are increasingly being instructed to represent Aviation Underwriters on claims where the insured Airport is based overseas. Most recently we have acted on behalf of Aviation Underwriters in respect of claims against Airports in Scandinavia, South America, Mainland Europe and the Caribbean.

Proven Success

A selection of some of the most recent cases the Aviation Team includes:

- Successfully negotiating settlement of a multi-million pound claim arising from a fatal aircraft accident in the Channel Islands.
- Represented Underwriters and our insured Client at the Inquest into the death of a helicopter pilot in poor weather in the midlands. Plexus successfully secured a verdict of accidental death.
- Acted on behalf of UK based international Airport following a substantial infrastructure collapse, which caused significant injuries to a member of staff employed by an Airline.
- Successfully defended claims for PTSD brought by a number of passengers on an Aircraft that collided with a fuel truck on the tarmac at our insured client's Airport.
- Negotiated settlement via ADR of a defamation claim following a dispute at check-in between a member of the public and a member of the check-in team
- Successfully defended a food poisoning claim against the supplier of in-flight meals to a well-known flag carrier airline.
