

Clinical Negligence

In the field of Clinical Negligence, Plexus is uniquely placed to provide a speedy, continuous and consistently high quality service to clients.

The team deliver a comprehensive service providing legal input at the early assessment stage, including pre action assistance and negotiations, and taking over the conduct of proceedings if required. The team's early involvement in a claim aims to eliminate duplication and ensure costs savings for our clients. As a result Plexus is often instructed by Insurers and healthcare providers at the outset to investigate and advise on a wide variety of medical malpractice and policy issues.

Clients include leading Lloyd's medical malpractice Syndicates, large composite Insurers, a number of leading healthcare providers (both clinical and psychiatric) with clinics throughout England and Wales, as well as individual practitioners including plastic surgeons, psychologists, alternative health practitioners including sports therapists, hypnotherapists and stress counsellors.

In addition, the team has experience in GMC/professional body disciplinary work, acting for clinicians and professional bodies, as well as involvement in overseas claims including claims in the Channel Islands, Italy, France, Greece and the Falkland Islands.

Specialist Expertise

The team are one of few in the country with over twenty years experience in handling the wide variety of issues and claims facing private healthcare providers and their staff.

The team's extensive experience includes the handling of claims involving:
